

# Clinic Provider Contracted Ins. Plans

Wickenburg Community Hospital

Although our clinic providers are contracted with the following insurance companies, they may not be contracted with every plan under that insurance company. Some specific plans have limited networks that do not include our providers regardless of our contracted status with the company. It is important to check with the insurance company to see if the plan you are enrolling with has a limited network and if so, verify that Wickenburg Hospital is part of that limited network.
